## **Economic Impact Data Collection Form**

## Purpose of Form

This form is used by Battelle to capture for each state's Agricultural Experiment Station program and Cooperative Extension Service program the specific and detailed financial expenditure and employment data needed to fully model for each state its "in-state" and total economic impacts of these programs as well as involvement in an overall Southern multi-state analysis.

Some sections require an estimation of the "geography" of expenditures -- in-state, other states within the Southern region (for clarity defined below), and out-of-region (such as other parts of the U.S. or foreign equipment suppliers). If data is available to provide exact shares, please do. If not, sound estimates are appropriate.

If you have any questions regarding the completion of this form please contact Battelle's Martin Grueber. E-mail: grueberm@battelle.org or Phone: (216) 898-6402.

## **Regional Definition**

For this analysis the "Southern Region" is based upon the regions associated with the Southern Association of Agricultural Experiment Station Directors and the Association of Southern Region Extension Directors. This Region includes the following states and territories: Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, Oklahoma, Puerto Rico, South Carolina, Tennessee, Texas, Virginia, and the U.S. Virgin Islands.

Okianoma, Puerto Rico, South Carolina, Term	essee, Texas, Virginia, and the 0.5. V	virgin isianus.
