

Economic Impact Data Collection Form

Purpose of Form

This form is used by Battelle to capture for each state's Agricultural Experiment Station program and Cooperative Extension Service program the specific and detailed financial expenditure and employment data needed to fully model for each state its "in-state" and total economic impacts of these programs as well as involvement in an overall Southern multi-state analysis.

Some sections require an estimation of the "geography" of expenditures -- in-state, other states within the Southern region (for clarity defined below), and out-of-region (such as other parts of the U.S. or foreign equipment suppliers). If data is available to provide exact shares, please do. If not, sound estimates are appropriate.

If you have any questions regarding the completion of this form please contact Battelle's Martin Grueber.
E-mail: grueberm@battelle.org or Phone: (216) 898-6402.

Regional Definition

For this analysis the "Southern Region" is based upon the regions associated with the Southern Association of Agricultural Experiment Station Directors and the Association of Southern Region Extension Directors. This Region includes the following states and territories: Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, Oklahoma, Puerto Rico, South Carolina, Tennessee, Texas, Virginia, and the U.S. Virgin Islands.

Please Indicate in Box to Right: Financial Data is Reported in \$Actual

Part 1: Recent Annual Expenditures

Expenditure Category	FY 2011	FY 2010	FY 2009
Salaries and wages to faculty, staff and other employed personnel (W-2 recipients)	\$15,817,066	\$17,424,547	\$18,122,208
Benefits for employed personnel (Including health, retirement, etc. and employer paid payroll taxes, e.g., employer side of social security, unemployment taxes, etc).	\$5,977,751	\$6,708,076	\$7,006,302

Payments to "mission specific" contractor personnel (Non-staff scientific and technical contractors & consultants, including independent contractors or 1099 recipients and incorporated firms)							
Capital account expenditures (Including land, buildings, equipment, or other amortized expenditures)							
Other general operating and administration expenditures (Including maintance, repairs, travel, fuel, communications, supplies, utilities, food, etc.)	\$2,425,702	\$2,654,588	\$2,764,136				
Total Expenditures:	\$24,220,519	\$26,787,211	\$27,892,646				
If there were significant differences in total expenditures from year to year please provide a brief explanation in the box below. Example: Major staff increase in FY 2010; Major construction project completed in FY 2009.							
Part 2: Personnel (FY 2011)							
In this section please use your institution's personnel structure to indicate the number of employees by classification as appropriate. Depending on the institution you may or may not use all of the "Personnel Type" categories. Finally, please indicate for each personnel type how many of these workers have some level of a joint appointment with the state's "Other Program" i.e, the non-responding Ag Experiment Station (AES) or Cooperative Extension Service (CES) program. For example, if the respondent is from a state's AES program, the last column would indicate how many of the "headcount" number will also be included in the "headcount" number for the state's CES program.							
Personnel Type	Number of Personnel (Headcount)	Full Time Equivalent	Number of Personnel With Joint Appointment To "Other Program"				
Institutional full-time & AES/CES respondent full-time employees (100% of their time is AES/CES mission specific)	405	405					

Institutional full-time & AES/CES respondent part-time employees (less than 100% of their time is AES/CES mission specific; for example may include individuals that are full-time with the university but they have a 25% teaching load)	8	2.5	2					
Institutional part-time employees & AES/CES part-time								
Non-student temporary employees								
Student employees (undergrad & graduate)								
Total Headcount	413		2					
Total FTEs		407.5						
Mission specific contractors (estimated numbers)								

Part 3: Capital Expenditures Details (FY 2011)

In this section please include the total actual expenditures in FY 2011 for any property purchases, new building construction, significant building repairs, or significant new equipment purchases. Include capital expenditures made directly by the state or other funding source specifically for experiment station or extension service use, prorated if also used by other entities. The items included in this section would typically be amortized from an accounting perspective. From an economic impact perspective, we need the actual dollars spent within the fiscal year. Examples: A) a \$2M piece of equipment purchased in FY 2011, the cost of which might typically be amortized, would count as a \$2M expenditure in FY 2011, regardless of the length of amortization. B) a new \$10M facility built out over two years (\$7M in FY 2010 and \$3M in FY 2011), would count as a \$3M capital expenditure in FY 2011. C) a new \$4.5M laboratory, designed by a design and build firm in Ohio for \$3.5 M with a single piece of German laboratory equipment for \$500K and the rest of the lab equipment from in-state vendors would count as \$3.5M in "out-of-region" new construction, \$0.5M "out-of-region" new equipment purchases and \$0.5M in "in-state" new equipment purchases.
